About the EPSM:

The non-profit European trade association EPSM represents the interests of acquirers, internet PSPs and other payment acceptance providers for merchants in the SEPA region. Its members can benefit from a cost-effective organization and a general information exchange on payment topics that are relevant to its members

EPSM, founded in April 2005, has currently 65 EPSM members with headquarters in 16 European countries (AT, BE, CH, CY, CZ, DE, FR, GR, IE, IT, LU, LT, NL, SE, UA, UK) and one country outside Europe (USA). There are voting (ordinary) members, like acquirers, payment network operators, and internet payment providers, and so-called non-voting (extra-ordinary) members, like several major payment schemes, payment processors, service providers, and terminal manufacturers.

The association has been in contact with the European Commission, the ECB, the EBA, other European and national organisations and taken part in numerous consultations. EPSM representatives are also active in the EU Payment Systems Market Expert Group (PSMEG) and the global PCI SSC Board of Advisors (PCI BoA).

EPSM has also joined also the Brussels-based association European Payments Institution Federation (EPIF) as an official observer and is a partner of various other organizations.

Given the current pandemic limitations, EPSM is hosting monthly virtual meetings with presentations for members and invited guests. There are on average 50 to 60 participants from more than 10 countries across Europe. Specialized working groups for SCA and AML Compliance are also meeting online.
