#### About the EPSM:

The non-profit European trade association EPSM represents the interests of acquirers, internet PSPs and other payment acceptance providers for merchants in the SEPA region. Its members can benefit from a cost-effective organization and a general information exchange on payment topics that are relevant to its members.

EPSM, founded in April 2005, has currently 69 EPSM members with headquarters in 16 European countries (AT, BE, CH, CY, CZ, DE, FR, GR, IE, IT, LU, LT, NL, SE, UA, UK) and one country outside Europe (USA). There are voting (ordinary) members, like acquirers, payment network operators, and internet payment providers, and non-voting (extra-ordinary) members, like several major payment schemes, payment processors, service providers, and terminal manufacturers.

The association is in contact with the European Commission, the ECB, the EBA, other European and national organisations and has taking part in a number of relevant consultations. EPSM representatives are active in the EU Payment Systems Market Expert Group (PSMEG) and the global PCI SSC Board of Advisors (PCI BoA). EPSM has joined the Brussels-based association European Payments Institution Federation (EPIF) as an official observer and is a partner with various other organisations.

EPSM is hosting monthly virtual meetings with presentations for members and invited guests. Specialized working groups for SCA and AML Compliance are meeting online as well.
